Curb Base Roof Fan.

Product datasheet

Curb Base Roof Fan.

*i***E**FANQUIP

The Fanquip Curb Base Hooded Roof Fans are a heavy duty, weatherproof roof exhaust fan designed for the removal of heat, steam and dust in commercial and industrial applications. Also available as a supply fan for building makeup air.

The Fanquip Curb Base Hooded Roof Fan is available using adjustable pitch GRP (Glassfiber Reinforced Polypropylene) or cast aluminium airfoil impellers. The casing is fully welded mild steel construction with a hot dip galvanised finish. A weatherproof fibreglass hood is bolted to the casing to entirely cover the fan outlet while offering the least resistance to flow. Heavy duty plastic mesh is fitted beneath the hood to protect against ingress of birds. The units are fitted with single-phase 240V or three-phase 415V heavy-duty motors of rugged construction, which incorporate sealed ball bearings to reduce operating noise. There are a comprehensive range available with fan diameters ranging from 300mm to 1200mm.

Key features.

- Exhaust or supply air versions available
- Fibreglass hood/Hot dip galvanised casing
- Birdmesh protection
- IP55 motor
- 🗸 GRP adjustable pitch blades
- Veatherproof design
- External junction box
- 700mm lead no plug

Applications.

The Curb Base Roof Fan has an extensive range of applications.

Installation locations.

- Factories
- Hospitals
- Office buildings
- Warehouses
- Manufacturing
- Processing plants

Extraction applications.

- Fumes
- Contaminated air
- Heat
- 🗸 Steam

Options.

- Aluminium or stainless steel casings
- Wide range of colour options available
- Belt driven or bifurcated design
- Aluminium adjustable pitch blades
- Hazardous location rated Exe, Exd, ExnA, Extd
- IP56 or IP66 motor
- Available without fan/motor as a relief vent
- Upstand for fan mounting

Technical advice.

Fanquip have technical consultants to provide guidance on the specifications required to suit your Curb Base Roof Fan use and application.

Warranty.

Twelve-month guarantee on the mechanical and electrical componentry subject to satisfactory maintenance with assessment and rectification, if any, to take place after return by the customer to Fanquip's workshop. Extended warranty options available on request.

Installation & maintenance.

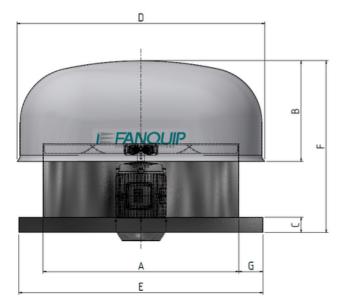

The necessary procedures are outlined in the Fanquip installation, operation and maintenance instructions. These should be followed to ensure satisfactory performance and service life.

Accessories					
Accessory	Specifications				
Finger Guards	 Fan guards are available for any of our circular fans, and stop foreign objects from entering the fan. Complies to Australian Standards of safety requirements. Painted finish. 				
Variable Speed Drives	✓ 3 phase or single phase input. IP20 or IP66 and EMC compliant. User friendly interface.				
Mounting Upstands	 Pre-fabricated roof mounting upstand for Fanquip roof fans. Galvanised sheet metal construction. Available to suit all metal roof profiles and pitch angles.
