

Giant Fan.

Product datasheet

The Fanquip Giant Fans provide a large air volume for widespread coverage throughout your facility. A high-volume low-speed fan (HVLS) can do much more than help you maintain comfortable indoor temperatures. Our multi-purpose Giant Fans can be used in the summer as cooling or during winter for heat destratification, improving air quality and providing energy savings year-round. Great for reducing odours, Giant Fans are perfect for industries that handle strong-scented materials or products in big open spaces. Complete with a wall-mount control box with variable speed controls, this low-energy solution is easy to install and maintenance-free.

Key features.

- ✓ Wall mount HMI controller with 7 speed settings
